Certified Public Accountants See Accountants—Certified Public

You'll get quicker service when you dial if you follow these simple steps:

1. Listen for the dial tone. This tone is your signal that the equipment is ready to take your call.
2. Dial each letter and digit of the number in its right order.
3. Draw the dial all the way to the finger stop.
4. Remove your finger and let the dial return naturally, without forcing or hurrying.
5. If you make a mistake while dialing, hang up for a few seconds and then start your call again.

WHY SOME TELEPHONES REPORT *busy!*

Conversation finished but receiver left "off the hook" — forgotten.

Books, ash trays, ornaments can keep it "off the hook" too.

For full use of your telephone, please keep your instrument "hung up" — ready for service.

(Continued Next Page)

People can't reach you by telephone when the instrument is left "off the hook". Your line is "busy" to anyone calling.

For full use of your telephone, please keep your instrument "hung up" — ready for service!
