PLEASE LISTEN for the DIAL TONE BEFORE DIALING

That "dial tone", a steady hum, is the signal that the equipment is ready to receive a call. It corresponds to an operator's "Number, please?"

Emergency!

An emergency arises—you need help quickly! Physician, hospital, ambulance, taxi or plumber! The quickest way of finding whom to call is to—

(Continued Next Page)

You'll get quicker service when you dial if you follow these simple steps:

1. Listen for the dial tone. This tone is your signal that the equipment is ready to take your call.
2. Dial each letter and digit of the number in its right order.
3. Draw the dial all the way to the finger stop.
4. Remove your finger and let the dial return naturally, without forcing or hurrying.
5. If you make a mistake while dialing, hang up for a few seconds and then start your call again.

FRONTIERS beyond

There are always new frontiers to telephone service, problems to be solved, improvements to be made, and there will always be Telephone Pioneers pushing on to new achievements.

THE PACIFIC TELEPHONE
AND TELEGRAPH COMPANY

Regardless of distance, Bekins Vanliners move furniture house-to-house, without crating expense. Careful handling by experienced drivers.

Vanliners make regular trips to Washington, Oregon, Iowa, Nebraska, Texas... and to eastern cities. At destinations, Vanliners are available for return trips.
