Telephone men in all parts of the Bell System have had long experience in working together. Tools, equipment, methods of tackling the job and the "language of the business" are the same north or south, east or west. This nationwide unity of method and spirit means a telephone service of the utmost dependability.

Memory plays tricks. If in doubt about a telephone number, please look it up in the Directory.

More and more, business men are finding that it pays in good will to place and receive their telephone calls with as little time-lag for the other fellow as possible. They place their own calls or stay close to the telephone when they tell someone else to do it.

If the telephone number of your residence is listed under another's name, frequently friends do not know how to reach you. For small cost you can have a separate listing in the Telephone Directory under your own name.
