DIALING

LOCAL CALLS

1. Obtain the correct number from the latest issue of the telephone directory. If the listing is not found, please call "INFORMATION".
2. Do not dial out-of-town numbers.
3. Listen for the dial tone, then dial the digits of the number.
4. If your dial contains both letters and numerals, be careful not to confuse the red figure "0" with the black letter "O" or the red figure "1" with the black letter "I".
5. Remove finger and let the dial return freely after each digit is dialed.
6. If a mistake in dialing has been made, replace the receiver and after waiting a few seconds, lift the receiver and when you hear the dial tone, dial the complete number again.
7. If, while dialing, another party comes on the line, state that the line is in use, replace the receiver for a moment and then after hearing the dial tone re-dial the complete number; otherwise a wrong number may result. If, before you start to dial, you hear the dialing of another party, tell the other party you have interfered with his dialing, then replace the receiver and make your call later.

TO CALL ANOTHER TELEPHONE ON YOUR PARTY LINE

To ascertain the telephone number of a party on your line call "REPAIR SERVICE".

To call a party on the same line dial as described below and then replace the receiver. Your telephone bell will ring. When the ringing stops, begin conversation. If no answer is received after a reasonable period, stop the ringing by momentarily lifting the receiver.

Two and Four Party Lines—Dial a special code number which you may obtain from "REPAIR SERVICE".

Ten Party Lines—Dial the listed number.

PUBLIC TELEPHONES

Instructions are posted on or near telephone instruments. Please report any service difficulties or coin collection error to the operator. A charge will not be made on calls which are not completed.

TONES AND SIGNALS

DIAL TONE—A continuous steady hum, the signal to start dialing.

RINGING SIGNAL—A "burring" tone repeated at regular intervals.

BUSY SIGNAL—A steady "buzz-buzz" tone.

DIAL AGAIN SIGNAL—A continuous hum alternately rising and falling in pitch indicating some mistake has occurred on the call.

VOICE RECORDING SIGNAL—A short high "beep" tone heard on the telephone line about every 15 seconds means that the person with whom you are talking is recording your conversation by means of his electrical recording machine connected to the telephone line.

This signal is provided by the Telephone Company for your protection. If you do not want a record made of what you are saying, ask the person with whom you are talking to disconnect the recording machine. When he disconnects his recorder the signal is no longer heard.

The "beep" is produced automatically by the device used to connect the recorder to the telephone line. It stops when the recorder is disconnected. Use of a recorder without this signal is unlawful.

DIRECTORY FACTS AND OTHER MATTERS

COPIES OF THIS DIRECTORY

Use of an out-of-date directory interferes with good telephone service, as each new issue contains many changes in numbers and listings.

Simply as a matter of good service, the Telephone Company retains ownership of telephone directories.

For this reason we ask that they be given to the delivery man at the time the succeeding issue is distributed.

IDENTIFICATION OF EMPLOYEES

Employees of this Company who regularly visit the public are provided with a photographic identification card. This card, which is properly countersigned, shows the employee's name, signature and photograph. If you doubt the right of a person to represent himself as an employee of this Company and he cannot furnish an identification card, please call the Business Office.

RATES

Rates and practices included in this directory are based upon those in effect at the time this directory was closed for printing and are subject to such changes as may be made from time to time.

ERRORS

Every effort is made to make the directory as accurate as possible.

The Company, however, assumes no liability for damages arising from errors or omissions in the making up or printing of its directories.

DIRECTORIES OF OTHER CITIES

Telephone directories of other cities may be consulted at our Business Office.

If you desire any copies, they may be obtained at an additional service charge by arrangement with the Business Office.

ATTACHMENTS TO TELEPHONES

In the interest of good service, please do not use any devices on telephone equipment except those furnished by the Company. The devices claimed by agents to eliminate noise, to destroy germs, etc., are usually detrimental and interfere with good service.
