

**SCIENTIFIC APPROACH**  
to **RADIANT health**

When natural elimination of toxins generated in the body is hampered by distortion of the intestines—a common condition—accumulation of these harmful toxins sometimes becomes excessive, resulting in complaints of Asthma, Hay Fever, Sinus Conditions, Constipation, Arthritis, Diarrhea, Colitis, Gall Bladder and Kidney Trouble, Heart and Liver Conditions. The real causes can be diagnosed only through intestinal X-ray plate examination, and corrected by COLON RECONSTRUCTIVE THERAPY (correction of the position of the intestines.) You owe it to yourself to ask about this scientific approach to RADIANT HEALTH!
