For best results with your telephone—please make sure of the number (if in doubt, consult the Telephone Directory); then speak with lips close to the mouth-piece, using your natural tone of voice.

If you're not sure of a telephone number, please try the Directory first. The chances are that the number is listed, and if you can avoid that unnecessary call to Information, it's just that much time saved all around.

The men and women in the Bell System are used to meeting emergencies and they are trained and equipped to carry on in times of special need. For years they have known the test of fire, flood and storm. Always before them is the tradition that "the message must go through".

(Continued Next Page)

In 1869, Elisha Gray and Enos Barton, with a half-dozen foot-lathes and a handful of skilled workmen, opened their shop which grew into the Western Electric Company of today, the manufacturing, purchasing and supplying unit of the Bell System.
