You'll get quicker service when you dial if you follow these simple steps:

1. Listen for the dial tone. This tone is your signal that the equipment is ready to take your call.
2. Dial each letter and digit of the number in its right order.
3. Draw the dial all the way to the finger stop.
4. Remove your finger and let the dial return naturally, without forcing or hurrying.
5. If you make a mistake while dialing, hang up for a few seconds and then start your call again.

A Directory Advertising Representative will be glad to help you prepare a Classified Directory advertisement that should be most profitable. You can reach him by calling the business office of the telephone company.

For accurate dialing of your calls, wait a few seconds for the steady humming sound of the dial tone. Then dial each letter and numeral gently, without forcing. If you get a busy signal, please hang up before dialing again.
