You'll get quicker dial service if you follow these simple steps:  
1. Listen for the dial tone. It's your signal that the equipment is ready to take your call.  
2. Dial each letter and digit of the number in its right order.  
3. Draw the dial all the way to the finger stop.  
4. Lift your finger and let the dial return naturally, without forcing.  
5. If you make a mistake while dialing, hang up for a few seconds and then start your call again.
