Party-Line Pointers:  
1. Space your calls instead of making a whole series.  
2. If yours is an emergency call and the line is in use, explain the circumstances to the person using the line.  
3. If you are calling from a dial telephone always make certain the line is clear before you dial.  
4. When the children use the telephone, ask them to be considerate, too.  
5. Replace the receiver properly when you finish your call.

Telephone men in all parts of the Bell System have had long experience in working together. Tools, equipment, methods of tackling the job and the "language of the business" are the same north or south, east or west. This nationwide unity of method and spirit means a telephone service of the utmost dependability.
