(Continued Next Page)

You'll get quicker service when you dial if you follow these simple steps:
 1. Listen for the dial tone. This tone is your signal that the equipment is ready to take your call.
 2. Dial each letter and digit of the number in its right order.
 3. Draw the dial all the way to the finger stop.
 4. Remove your finger and let the dial return naturally, without forcing or hurrying.
 5. If you make a mistake while dialing, hang up for a few seconds and then start your call again.

Would you like to get your share of business from customers in your neighborhood? Then why not advertise in the Classified Telephone Directory? You can call the business office of the telephone company and ask for the Directory Advertising Representative. He can help you plan an effective message.

PLEASE LISTEN for the DIAL TONE BEFORE DIALING

That "dial tone", a steady hum, is the signal that the equipment is ready to receive a call. It corresponds to an operator's "Number, please?"
