TO GLUE FURNITURE
 In gluing a loose furniture joint, remember that glue doesn't provide strength in filling an open space, so first put a strip of thin cotton cloth over the piece that fits into the mortise. Then do the gluing, tie the joint firmly together and let it set for 24 hours.

Good neighbors are considerate party line users. Remember these party-line golden rules:
 • Space your calls instead of making several of them without a break.
 • Talk only as long as you have to on each call.
 • When you finish talking replace the receiver properly.
 • Make certain, if you are using a dial telephone, that the line is clear to receive your call.
 • Ask your youngster not to monopolize the telephone.
