

25 Years Success... Sacramento's Leading X-RAY Chiropractor

In my many years of experience I have been privileged to successfully treat thousands of patients, many of whom had practically given up in despair before coming to me. I am justified in pointing with pardonable pride to an unequalled record of accomplishment.

This is due to the fact that I do not accept a patient without first making a complete spinal analysis, and the employment of X-Ray when necessary, to locate and determine the cause of your condition. To accomplish this, my office is provided with the most modern X-Ray equipment, which makes a permanent film record enabling me to make an accurate analysis and also to study your progress while undergoing treatment. All guesswork is eliminated.

I employ ONLY Chiropractic adjustments. They reach the cause of your condition directly and correct it by relieving the pressure on impinged nerves. My adjustments are gentle. I adjust the entire spine.

You are invited to consult me and discuss your case freely, WITHOUT OBLIGATION. If I can benefit you, I will frankly tell you so. If I cannot, I will be equally frank. Your health is at stake, so why not talk over your condition with me?

State Compensation Cases Accepted
