Record Searching-See Searchers of Records

You'll get quicker service when you
dial if you follow these simple steps:
1. Listen for the dial tone. This tone is
your signal that the equipment is
ready to take your call.
2. Dial each letter and digit of the number
in its right order.
3. Draw the dial all the way to the
finger stop.
4. Remove your finger and let the dial
return naturally, without forcing or
hurrying.
5. If you make a mistake while dialing,
hang up for a few seconds and then
start your call again.
