TO PAINT SCREENS
To paint a screen, or cover it with insect repellent, fasten a piece of old carpet to a block of wood. By using this implement instead of a brush, you will save lots of time and avoid lots of splattering.

TO GLUE FURNITURE

In gluing a loose furniture joint, remember that glue doesn't provide strength in filling an open space, so first put a strip of thin cotton cloth over the piece that fits into the mortise. Then do the gluing, tie the joint firmly together and let it set for 24 hours.

Here's how you may be sure of getting your party more often when you dial:
1. Look up your number in the latest directory.
2. Listen for the steady hummmm of the dial tone.
3. Keep your eye on the dial.
4. Wait a minute before you decide your party isn't home.
