Don't forget to plan for concealed telephone conduit and convenient locations for telephone outlets when you build your new home. These built-in telephone facilities add real value to a home, yet their cost is very small if they are installed during construction.

Keep light from milk! Keep light from milk to prevent loss of riboflavin, its most important vitamin element. If you don't meet the milkmen, leave out a covered, insulated box for bottles of milk. Remember that light hurts milk more than heat does in a short time.
