TO GUE FURNITURE
 In gluing a loose furniture joint, remember that glue doesn't provide strength in filling an open space, so first put a strip of thin cotton cloth over the piece that fits into the mortise. Then do the gluing, tie the joint firmly together and let it set for 24 hours.

EXPLOSION IN OVEN
 If you burn the inside of the oven with an exploded potato or something, soak it clean in ammonia and let it stay on the burned places an hour or so, after which you can scrape the spots clean without harming the enamel.

Electroplating-See Plating

OUNCE OF PREVENTION
 Walnuts tend to dry out your baked goods, so before adding to batter, soak in boiling water 5 minutes.
