KEEP LIGHT FROM MILK

Keep light from milk to prevent loss of riboflavin, its most important vitamin element. If you don't meet the milkman, leave out a covered, insulated box for bottles of milk. Remember that light hurts milk more than heat does in a short time.

1. Listen for the dial tone. This tone is your signal that the equipment is ready to take your call.

2. Dial each letter and digit of the number in its right order.

3. Draw the dial all the way to the finger stop.

4. Remove your finger and let the dial return naturally, without forcing or hurrying.

5. If you make a mistake while dialing, hang up for a few seconds and then start your call again.
