KEEP LIGHT FROM MILK
 Keep light from milk to prevent loss of riboflavin, its most important vitamin element. If you don't meet the milkman, leave out a covered, insulated box for bottles of milk. Remember that light hurts milk more than heat does in a short time.

TO FILL CRACKS

Cracks in wooden walls, etc., can be permanently repaired by filling them with a thick paste made of approximately 1 part linseed oil, 2 parts hot glue, 3 parts whiting and 4 parts sawdust.

TO GLUE FURNITURE

In gluing a loose furniture joint, remember that glue doesn't provide strength in filling an open space, so first put a strip of thin cotton cloth over the piece that fits into the mortise. Then do the gluing, tie the joint firmly together and let it set for 24 hours.

The Yellow Pages save you time.
