**KEEP LIGHT FROM MILK**

Keep light from milk to prevent loss of riboflavin, its most important vitamin element. If you don't meet the milkman, leave out a covered, insulated box for bottles of milk. Remember that light hurts milk more than heat does in a short time.

**Party Line Pointers:**

1. Space your calls instead of making a whole series.
2. If you're in an emergency call and the line is in use, explain the circumstances to the person using the line.
3. If you are calling from a dial telephone always make certain the line is clear before you dial.
4. When the children use the telephone, ask them to be considerate, too.
5. Replace the receiver properly when you finish your call.

Have the right number when you call. It's natural to trust to memory—but when memory plays tricks with a telephone number, you're delayed. When you are not sure of a number—please look it up in the telephone directory.

*A handy man for any job--*  
The Yellow Pages tell you where to reach him quickly—plumber—carpenter—dry cleaner—paperhanger—and hundreds of other workmen, stores and services.
