Just a reminder...

*Built-in
telephone outlets are
inexpensive*

It costs little to install conduit for a number of telephone outlets at the time a house is built...and it's a wise economy, even if only one telephone is needed immediately.

Future telephones can then be added without bringing exposed wires in along baseboards or molding.

Outlets add real value to a house. So plan ahead for them. Call or dial your local Telephone Business Office and ask for information about extra built-in telephone outlets.
