As one friend TO ANOTHER

Please speak distinctly, when you telephone, with lips close to the mouthpiece. It is just as important to talk directly into the transmitter as it is to keep your ear close to the receiver.

Party Line Pointers:

1. Space your calls instead of making a whole series.
2. If you are in an emergency call and the line is in use, explain the circumstances to the person using the line.
3. If you are calling from a dial telephone always make certain the line is clear before you dial.
4. When the children use the telephone, ask them to be considerate, too.
5. Replace the receiver properly when you finish your call.

When the name of a BUSINESS HOUSE has been forgotten ... or when you are new to the city, or when you simply want to find a telephone number the quickest way ...
