AREA CODES FOR FASTER LONG DISTANCE CALLING

Even on calls you must place with the Long Distance Operator, the area code will help you get them through faster. Just give her the area code (if it is different from the one for the phone you are using) and the telephone number you want. For example, say "Area Code 311, 555-2368." If the Operator needs to know the place name, she will ask for it.
