

Over 700,000 Telephone Calls

are made in San Francisco and vicinity each day

Q A large proportion of these messages are purchasing orders or relate to buying or selling. This fact is of vital interest to shopkeepers. It indicates that the telephone system is the great channel through which flows a large part of the City's trade :: :: :: :: ::

Large Shopkeepers are well aware of this fact, and have installed many telephones to serve as inlets for telephone orders. In many cases telephone trade constitutes a large proportion of their business :: ::

Small Shopkeepers can get their share of this trade—providing they have telephone facilities and give prompt attention to telephone orders. Telephone buying is on the increase, and the telephone is now as necessary to the modern shopkeeper as is his stock of goods

The constant use of the **Telephone Directory** has created for the shopkeeper a valuable medium in which to advertise his wares :: :: :: :: ::

The rates for space in this book are reasonable
