THE SHIPPING VAN WAY—Furniture and household goods are carefully wrapped with furniture pads, and placed in a specially constructed shipping van and the doors are securely locked. The van is placed aboard a steamer and sent to destination. Steamers reach Los Angeles in 16 to 18 hours.

LOWEST RATES—Our rates are much lower than ordinary trucking rates, and not being bound by any commission or combine we are at liberty to deal with you in a manner suitable to your needs; we are also able to transport your goods to Eureka, Portland and Seattle, by fast passenger steamers, and by our special railroad vans to Oregon, Washington, Utah, Nevada, Arizona, and all points east, eliminating crating and other packing expense.

ABSOLUTE SAFETY—This service practically eliminates all danger of fire, theft, upsets and damage by jars and jolts caused by many miles of truck travel. The insurance rates covering this kind of transportation are much lower than motor truck insurance; this is conclusive proof of the safety of this kind of shipping.

ORIGINATORS AND INVENTORS—We are also pleased to inform you that we are the originators and inventors of this system of shipping, and have thereby made it possible for you to move your goods instead of being compelled by the old expensive methods to give them away to the second-hand man. Let us call and estimate the cost of your moving and further explain this marvelous system of shipping.
