AS SHE TYPES, COPIES APPEAR
AT MANY POINTS AT ONCE
A typist in one city, on a Telephone
Typewriter, records an order, letter, bill or
memorandum.

As her fingers touch the keys of her instrument,
those exact letters appear simultaneously
in other offices in the same building
or in distant cities.

Such is the Telephone Typewriter, a new
aid to modern business.

Offices, plant, warehouse, all can be tied
together by The Telephone Typewriter.
