

## Service Functions of the Buyer's Guide

The Buyer's Guide performs two service functions, namely:

**First: A Buying and Selling Service:—**

This service enables those having commodities or services to sell, to advertise such services, and those desiring to buy a particular commodity or service to readily ascertain "Where To Buy It."

**Second: A Business Telephone Number Service:—**

This service facilitates ascertaining the telephone number of a business telephone subscriber under the Main Heading, which is generally descriptive of the business in which the desired party is engaged.

## How to Find Where to Buy a Particular Commodity or Service

To find where to buy the article or service you want:

**First**—locate the main heading which is generally descriptive of the commodity or service you wish to purchase.

**Second**—find the sub-heading or the sub-sub-heading descriptive of the particular kind of article or service you desire, and then select from the listing shown thereunder the dealer with whom you wish to do business. Main headings are arranged in alphabetical order determined by the sequence of the letters in each part of the heading. The sub-headings and sub-sub-headings follow in like alphabetical arrangement after the last listing under the main heading, and are somewhat indented in the column for the purpose of indicating that they are a part of the service described by the main heading with which they are associated.

For example, if you wish to purchase a particular type of machinery, such as Laundry Machinery, find:

**First**—The general heading of

**Machinery Business**

**Second**—Locate the sub-heading of

**Laundry Machinery**

which will be found in its alphabetical order, indented with the other headings, following the last listing appearing under the heading of MACHINERY BUSINESS.

Under this sub-heading you will find listed the names of dealers from whom you can buy Laundry Machinery.

### Machinery Business

Advance Machinery Co 50 W 3rd... BE lmt-2077  
**AMERICAN MACHINERY EXCHANGE**
