AS SHE TYPES, COPIES APPEAR
AT MANY POINTS AT ONCE

A typist in one city, on a Teletypewriter,
records an order, letter, bill or memorandum.
As her fingers touch the keys of her instrument,
those exact letters appear simultaneously
in other offices in the same building
or in distant cities.

Such is the Teletypewriter, a new aid to
modern business.

Office, plant, warehouse, all can be tied
together by The Teletypewriter.

TELEPHONE "JACKS" OFTEN
ADD GREATLY TO CONVENIENCE

At desired points, "jacks" for a portable
telephone may be installed in your home or
business premises. A "plug" on the end of
the portable telephone cord makes the tele-
phone connection.

This is one of several special types of
telephone service which are available for
particular requirements.
