TO GET BEST RESULTS FROM

YOUR DIAL TELEPHONE

1. Before calling, please consult your directory unless you are sure you know the correct number.
2. Wait for the characteristic "dial hum" before starting to dial a number.
3. After each operation of the dial, remove your finger and let the dial go back to normal position of its own accord.
4. Distinguish carefully between the black letter "O" and the red zero figure on the dial.

Complete instructions on the use of the dial telephone will be found in the front pages of your telephone directory.
