A special telephone has been developed by
the Bell System for the aid of those with
impaired hearing. Our nearest business of-
fice will gladly give further information.

You can never tell
who is calling

THERE are men and women who get
so engrossed in what they are doing
that they let their telephones ring a min-
ute or so before they answer.

A natural thing, sometimes, but don't
you agree that friends, customers, busi-
ness associates who come to you by tele-
phone should be received at least as
quickly as though they came in person?

Prompt answering shows alertness. It
prevents needless crowding of your tele-
phone entrance. A prompt answer is tele-
phone hospitality.

You never know who it is at your tele-
phone door; please open it promptly
