We cannot get all the switchboards and other equipment needed to meet the telephone demands of the times. So we must make the most of present equipment. That's why "Information" appreciates your looking in your Directory for listings before you ask her assistance. It helps to keep her lines and facilities clear for the use of all who need her aid.

 (Continued Next Page)

Listen for the dial tone—dial carefully—draw the dial all the way, remove your finger and then let it go back to position naturally, without forcing. These simple steps enable you to dial telephone numbers speedily and with precision.

PLEASE LISTEN for the DIAL TONE BEFORE DIALING

That "dial tone," a steady hum, is the signal that the equipment is ready to receive a call. It corresponds to an operator's "Number, please?"
