 When you take millions of men and put them in camps around the country, you're bound to have a lot of Long Distance telephoning. The rush is particularly heavy at night between 7 and 10—about the only time the boys have to telephone. So if you can make your Long Distance calls at other times, we'll appreciate it.

The call is for ships—planes—tanks—production of a thousand kinds. Industry is under pressure. Communications are under pressure. Much of the "leg work" of the times is being done by telephone.
