In these busy days when saving
time is so important, more and
more telephone users are following
the thoughtful way of answering the
telephone: "Harry Smith speak-
ing." Such an introduction estab-
lishes identity, saves time and makes
a good impression.

Radar ranks high in the top
bracket of new instruments that
brought victory to the Allies. It was
developed through years of re-
search and experiment, chiefly in
the United States and Great Brit-
ain. Scientists of Bell Telephone
Laboratories and workers of West-
ern Electric Company developed
and supplied our Government with
more radar equipment than any
other supplier.
