The Electrical Gun Director was developed by Bell Telephone Laboratories and made by Western Electric Company during World War II. Employing more than 100 vacuum tubes, it solves in 15 seconds mathematical equations that would take a trained mathematician more than 5 hours to do.

Save time and trouble by looking in the Classified Telephone Directory first. It tells you who sells things, who mends things, who does things.

Always

KEEP RECEIVER ON THE HOOK

When you are through talking on the telephone, always see that you place the receiver back on the hook. Otherwise you may miss an important call.
