Radar ranks high in the top bracket of new instruments that brought victory to the Allies. It was developed through years of research and experiment, chiefly in the United States and Great Britain. Scientists of Bell Telephone Laboratories and workers of Western Electric Company developed and supplied our Government with more radar equipment than any other supplier.

Advertising in the Yellow Pages of the Telephone Directory is a direct way to keep your products before buyers. More and more people "Look inside the Classified" before buying.

Hurry in dialing often wastes time. Listen for the dial tone. Dial carefully, drawing the dial all the way to the stop. Remove your finger and let the dial return to position naturally, without forcing. Result: Speed, accuracy!

When you see something advertised and want to talk to a dealer about it . . . or when you want to get service on some advertised product you already own . . . you'll find the Classified Telephone Directory a great convenience.

Good rules in dialing: Wait for the dial tone. . . Dial accurately, without forcing. . . Let the dial return naturally to starting position. . . If you encounter a "busy," wait a reasonable time and try again.
