Embalming Schools-See Schools

Radar ranks high in the top
bracket of new instruments that
brought victory to the Allies. It was
developed through years of re-
search and experiment, chiefly in
the United States and Great Brit-
ain. Scientists of Bell Telephone
Laboratories and workers of West-
ern Electric Company developed
and supplied our Government with
more radar equipment than any
other supplier.

Have the right number when you
call. It's natural to trust to memory
—but when memory plays tricks
with a telephone number, you're
delayed. When you are not sure of
a number—won't you look it up in
the telephone directory?
The men and women in the Bell
System are used to meeting emer-
gencies and they are trained and
equipped to carry on in times of
special need. For years they have
known the test of fire, flood and
storm. Always before them is the
tradition that "the message must
go through".
