You'll get quicker service when
you dial if you follow these simple
steps:

- 1. Listen for the dial tone. This tone
is your signal that the equipment
is ready to take your call.
2. Dial each letter and digit of the
number in its right order.
3. Draw the dial all the way to the
finger stop.
4. Remove your finger and let the
dial return naturally, without forc-
ing or hurrying.
5. If you make a mistake while dial-
ing, hang up for a few seconds
and then start your call again.
