When you take down your telephone to dial, a few seconds are sometimes required for the equipment at the central office to get ready to serve you. When it is in position you hear a notifying hum, a "dial tone", corresponding to an operator's "Number, please?" If you will wait for this dial tone, it will speed your calls

Please make sure your telephone receiver is on the hook when it is not in use. Anything that causes the receiver to be out of place interrupts your service - perhaps causes you to lose calls that are important.

The first United States flag to be raised on Leyte was put in place on a palm tree by a former telephone lineman. Wearing climbing spikes, and with Old Glory tied around his waist, he climbed up the tree trunk amid cheers and enemy bullets.
