Do you wait for the dial tone
before dialing? When you dial be-
fore hearing the tone, you prevent
the equipment from getting you your
number. You also impair its ability
to serve other users. Waiting for the
dial tone helps the service to serve
all.

Please make sure your telephone
receiver is on the hook when it is
not in use. Anything that causes the
receiver to be out of place in-
terrupts your service - perhaps
causes you to lose calls that are
important.
