

**VOICE RECORDING SIGNAL**

If you are talking on the telephone and you hear a short high "beep" tone every 15 seconds or so, it is a voice-recording signal. This means the person you are talking to is recording your conversation. It is against the law to use a recorder without this signal.

**HOW TO CALL SOMEONE ON YOUR PARTY LINE**

Dial Operator, give her the number, tell her it is on your line and she will help you make the call. To find out whether a neighbor's telephone is on your line, dial 611 and ask Repair Service.

**CALLS YOU CAN DIAL YOURSELF**

**FROM PAY TELEPHONES**

You can dial direct all San Francisco numbers and the other numbers shown on the card at the telephone.

**FROM OTHER TELEPHONES**

You can dial direct most numbers that have 2 capitalized letters and a numeral in the prefix and four other numerals (like your own) in the San Francisco Bay area, and in a coastal strip extending as far north as Eureka and as far south as San Luis Obispo.

If you have any questions, dial your Long Distance operator and ask her.

**After You Dial**

An operator may come on the line and ask for the number of the telephone you are using. This is necessary to complete your call.

**If You Reach a Wrong Number**

The operator can adjust the charge. Ask whoever answers what city he is in. Then dial Operator immediately and tell her.

**CALLS YOU PLACE THROUGH OPERATOR**

There are certain calls you place through an operator:

- Station-to-Station calls you cannot dial direct
- Person-to-Person calls
- Collect calls

**Station-to-Station Calls**

When you will talk with anyone who answers the called telephone, you make the call "station-to-station". Calls you dial yourself are station-to-station calls. To make a station-to-station call to a telephone you cannot dial yourself do this:

Dial 211 (Long Distance). From pay phones dial "0" or 211 as instructed on the instrument.

Tell the Operator the name of the city and the telephone number you want. If you do not know the number, give the Operator the name and address the telephone is listed under and tell her you will talk with anyone who answers.

**Person-to-Person Calls**

When you want to talk to a particular person, department or extension, you can make the call "person-to-person".

To do so, dial 211.

Tell the Operator the name of the city . . . the telephone number (or the name and address the telephone is listed under) . . . and what person, department or extension you want.

The charge for this kind of call is somewhat more than for a "station-to-station" call.

**Collect Calls**

When you want your call billed to the number you are calling, you can make the call "collect".

To do so, dial 211.

Tell the Operator when you place the call—not afterwards—that you want it made "collect".

The minimum charge for a "collect" call is 30c. Otherwise, collect calls cost the same as other calls.

**Other Long Distance Calls**

It will help also if you ask for:

- Overseas Operator . . . . . on calls overseas or to Alaska
- Marine Operator . . . . . on calls to ships and planes
- Mobile Service Operator . . . . . on calls to autos, trucks, trains

Upon request, the Operator will notify you at the end of a stated period of time on long distance calls.

# From flat rate telephones no charge. From message rate telephones, the charge is one Message Unit. From pay telephones, the charge is 10c.

† 1 Message Unit is charged for each additional 2 minutes.

Collect and person-to-person calls are billed at long distance rates (not message unit rates). The minimum charge for a collect call is 30c.

Collect and person-to-person calls are not available between the San Francisco and East Bay Zones.
