Here's how you may be sure of getting your party more often when you dial:

1. Look up your number in the latest directory.

2. Listen for the steady hummm of the dial tone.

3. Keep your eye on the dial.

4. Wait a minute before you decide your party isn't home.

Don't Throw It Away

Things around the house you consider useless—may need only minor repairs to make them serviceable. Call a service man near you.

TO GLUE FURNITURE

In gluing a loose furniture joint, remember that glue doesn't provide strength in filling an open space, so first put a strip of thin cotton cloth over the piece that fits into the mortise. Then do the gluing, tie the joint firmly together and let it set for 24 hours.

You'll get quicker service when you dial if you follow these simple steps:

1. Listen for the dial tone. This tone is your signal that the equipment is ready to take your call.
2. Dial each letter and digit of the number in its right order.
3. Draw the dial all the way to the finger stop.
4. Remove your finger and let the dial return naturally, without forcing or hurrying.
5. If you make a mistake while dialing, hang up for a few seconds and then start your call again.

Don't forget to plan for concealed telephone conduit and convenient locations for telephone outlets when you build your new home. These built-in telephone facilities add real value to a home, yet their cost is very small if they are installed during construction.

SPECIAL STUDIES...

... reveal that over 9 out of 10 buyers consult the classified telephone directory when they want to buy. Adequate representation under ALL classified headings, descriptive of your products or services, will enable them to find you easily. The Pacific Telephone & Telegraph Company

Two friendly telephone habits: QUICK to answer when your bell rings; SLOW to hang up when you call someone who does not immediately respond. In calling others, remember that the called person may be almost there—so wait a few seconds longer.
