TO GLUE FURNITURE In gluing a loose furniture joint, remember that glue doesn't provide strength in filling an open space, so first put a strip of thin cotton cloth over the piece that fits into the mortise. Then do the gluing, tie the joint firmly together and let it set for 24 hours.

Party Line Pointers: 1. Space your calls instead of making a whole series. 2. If yours is an emergency call and the line is in use, explain the circumstances to the person using the line. 3. If you are calling from a dial telephone always make certain the line is clear before you dial. 4. When the children use the telephone, ask them to be considerate, too. 5. Replace the receiver properly when you finish your call.

NEWSPAPER FIREWOOD To make a small grate or stove fire, or to kindle a big one, use old newspapers which have been rolled up tightly, soaked overnight in water, squeezed out and allowed to dry for several days. The tighter they are squeezed, the better firewood they make.

Please wait till you hear the dial tone... then dial.

Good party-line neighbors are considerate party-line users. Remember these golden rules: • Space your calls instead of making several without a break. • Talk only as long as necessary on each call. • When you finish talking replace the receiver properly. • Make certain, if you are using a dial telephone, that the line is clear before you dial. • Ask your youngsters to be considerate, too.
