**TO GLUE FURNITURE**  
In gluing a loose furniture joint,  
remember that glue doesn't provide  
strength in filling an open  
space, so first put a strip of thin  
cotton cloth over the piece that  
fits into the mortise. Then do the  
gluing, tie the joint firmly to-  
gether and let it set for 24 hours.

**NOTICE TO THE PUBLIC**

How are you going to choose your mover? To our knowledge  
there is no neutral consumer's guide to answer this very important  
question. So within our space limits here 3 Way Van Lines  
presents the following methods and our warranty of service to  
meet in full these standards.

1. Obtain at least three estimates (all movers will estimate at no cost with no obligation). These estimates should not vary widely from each other. Estimates are not binding contracts. Your actual moving charges will be based on actual weight or actual time spent.
  2. Watch the methods of the estimator. An indication of good service will be shown by his thoroughness in checking the exact contents of drawers and cabinets. A good estimator will advise you of all the facts, even the facts that tend to kill his sale, such as: the legal limits of a mover's liability, how appliances must be serviced for moving, the limitations and technicalities of your transit and storage insurance, the COD requirements set by state and federal law, and his general frankness in advising you of where packing economies can and can not be made.
  3. If at all possible, visit the warehouse of your proposed mover. A clean warehouse, clean trucks and furniture pads, and well protected neatly stacked storage lots are good indications of how your furniture is going to be treated.
  4. At the time of estimate a service minded mover will investigate your individual situation to limit the service to your budget and needs in full compliance with all government regulations. An estimator who questions you closely on your plans is interested in minimizing your fringe moving costs such as expensive waiting at destination for your furniture.
  5. Investigate the mover's handling methods. Minimum handling means minimum damage. For long distance moves specify that the residence pick up be made by the cross country van. On local moves which are charged on a time basis request a van large enough to give you quick loading and unloading.
- In all phases of our business (local moving, long distance moving, storage, packing, and crating) 3 Way Van Lines welcome your most thorough investigation of our service. Your patronage will be valued and appreciated.
