EXPLOSION IN OVEN
If you burn the inside of the oven
with an exploded potato or some-
thing, soak a cloth in ammonia and
let it stay on the burned places an
hours or so, after which you can
scrape the spots clean without
harming the enamel.

You'll get quicker service when
you dial if you follow these simple
steps:

1. Listen for the dial tone. This tone
is your signal that the equip-
ment is ready to take your call.
2. Dial each letter and digit of the
number in its right order.
3. Draw the dial all the way to the
finger stop.
4. Remove your finger and let the
dial return naturally, without
forcing or hurrying.
5. If you make a mistake while dial-
ing, hang up for a few seconds
and then start your call again.
