

MESSAGE UNIT SERVICE

Station-to-station calls to points shown on the map, page 3, are billed as message units. The number of message units per call depends on how far you call and how long you talk.

Message units are totalled and appear as one item on your bill. The rate for each message unit is 4 1/4c plus Federal Tax. This is cheaper than for calls billed separately.

On calls from coin telephones, hotel private branch ex-

change and business foreign exchange services the rate for each message unit is 5c.

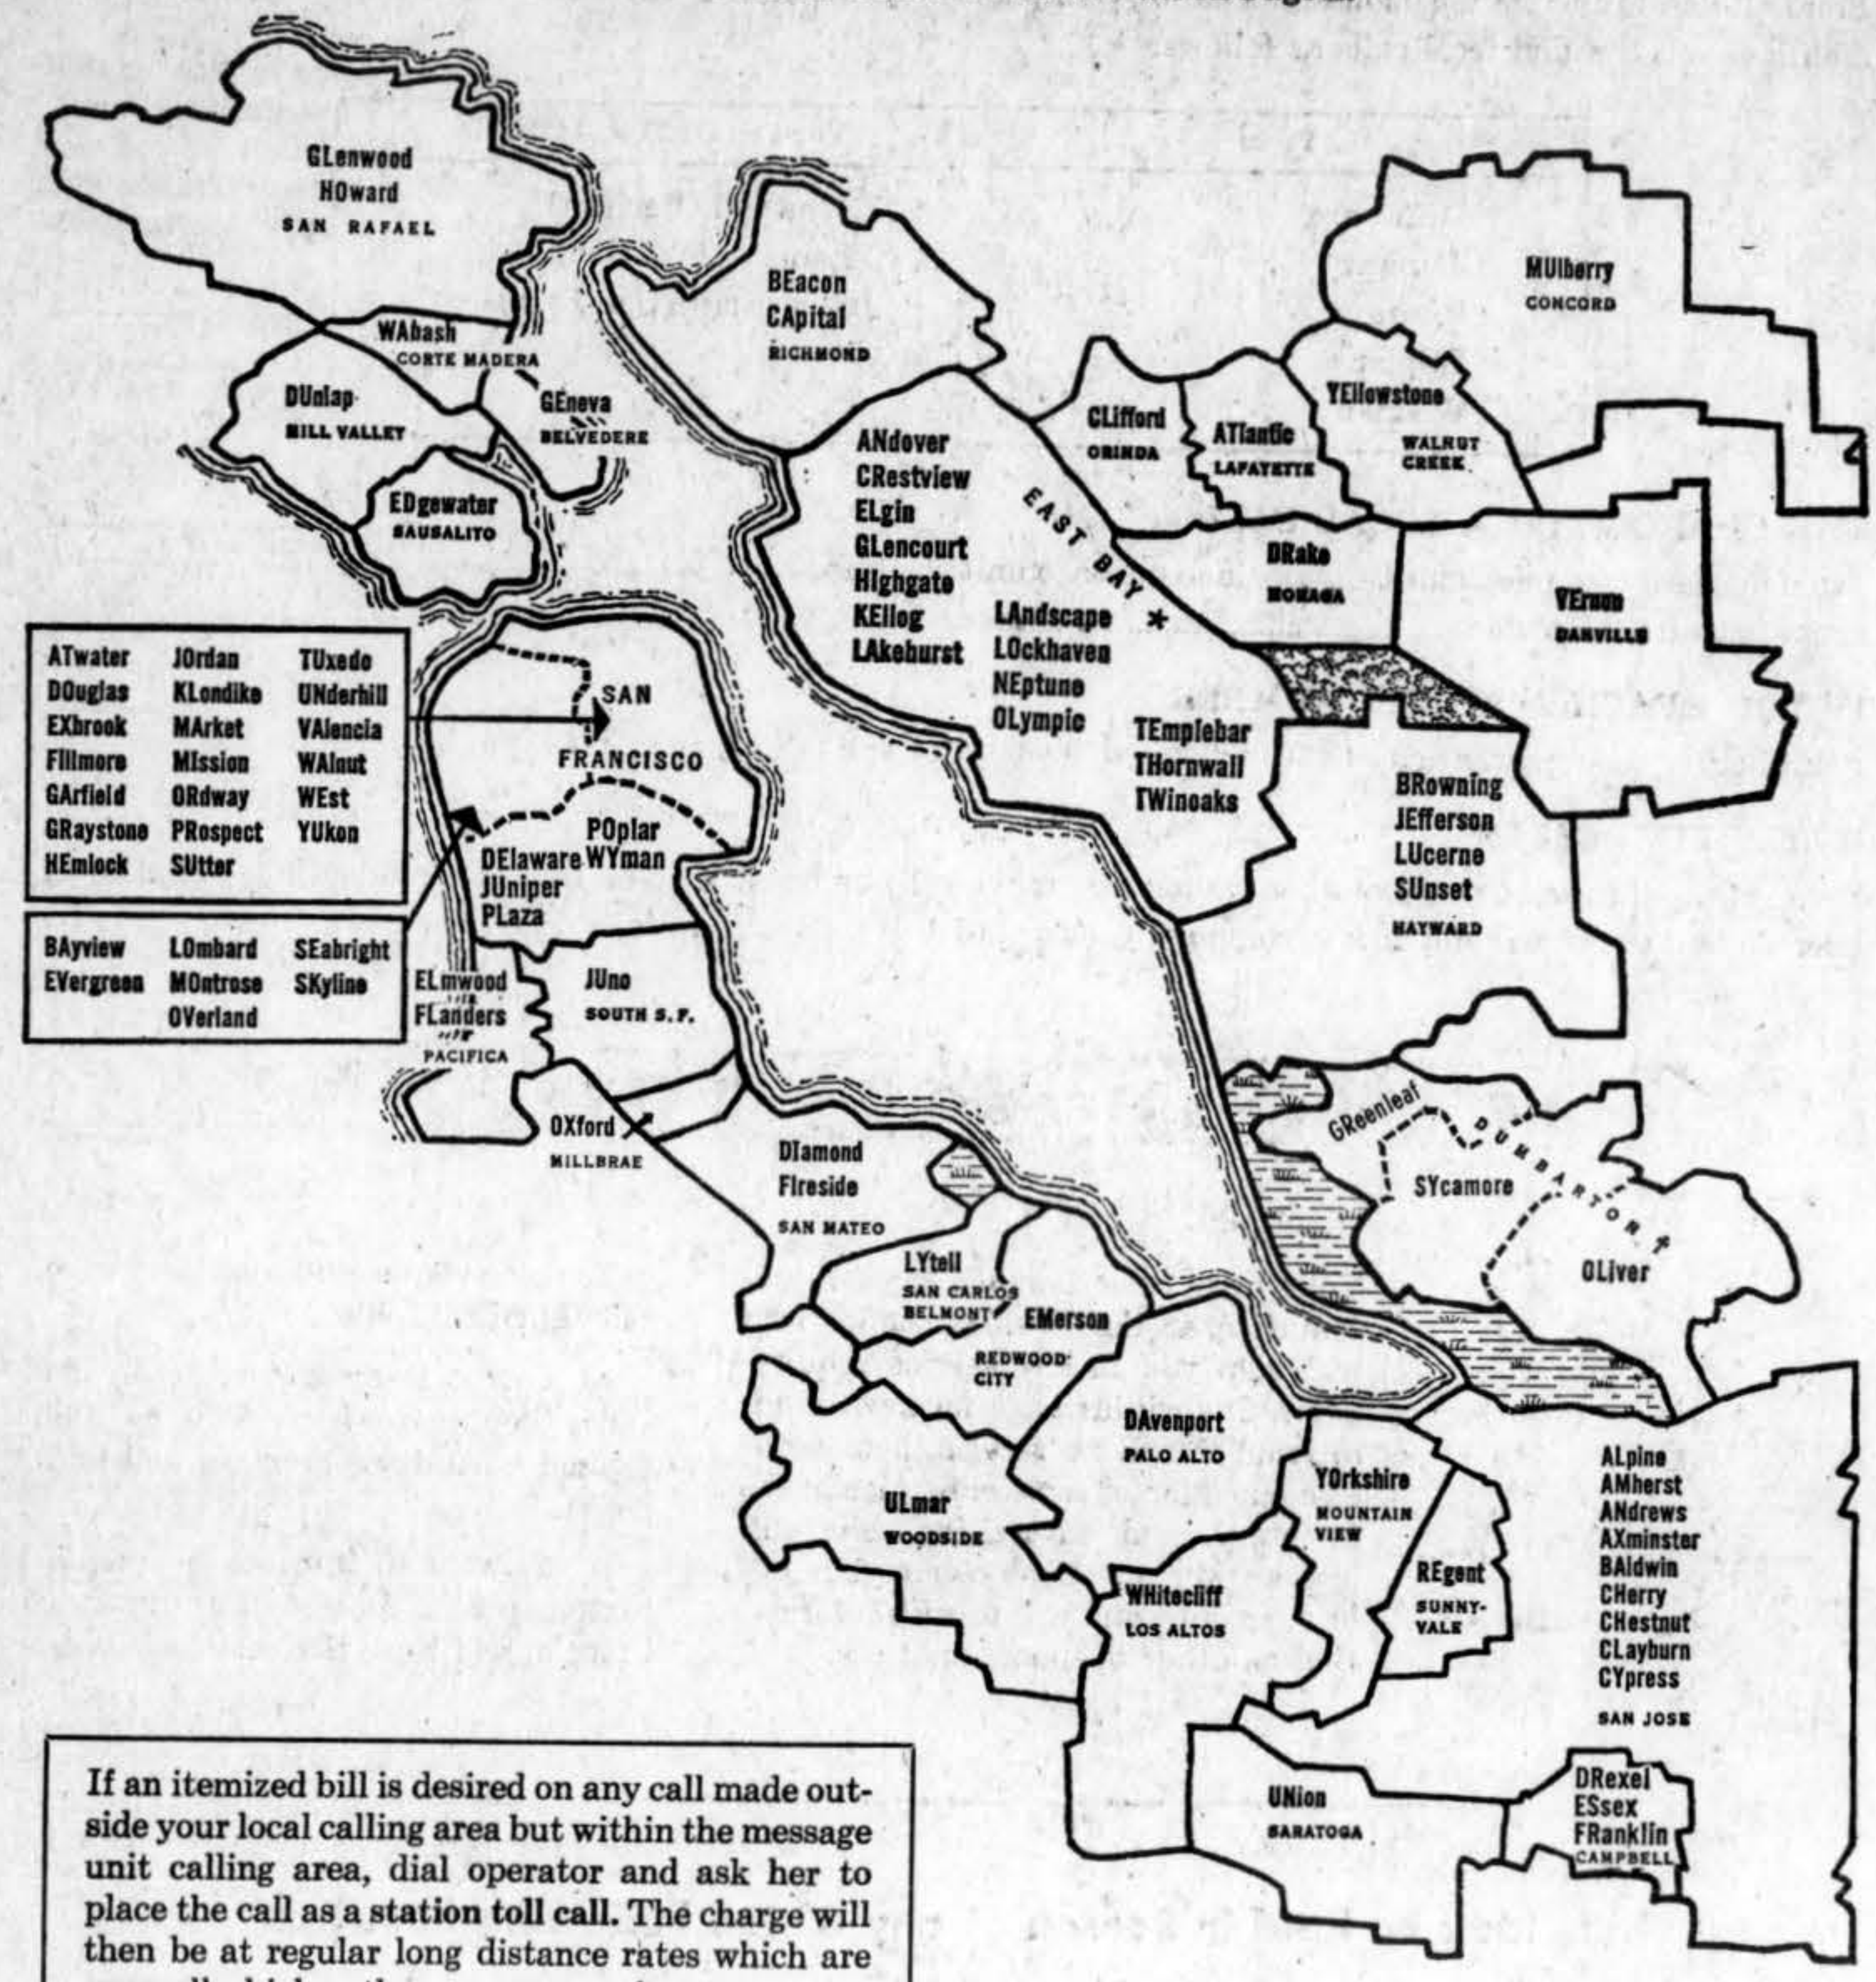

If an itemized bill is desired on any call made outside your local calling area but within the message unit calling area, dial operator and ask her to place the call as a station toll call. The charge will then be at regular long distance rates which are generally higher than message unit rates.
