The DIAPER SERVICE SYMBOL OF SAFETY

dioseptic process

1. Kills all harmful bacteria.
2. Completely rinses out all cleansing agents and other substances irritating to baby's skin.
3. Impregnates the fibres of every diaper with a germicidal solution in controlled amount.
4. Produces soft, white, fluffy absorbent diapers that help prevent diaper rash, because they are chemically non-irritant to the normal skin and actively antiseptic with germ-killing properties.

Good party-line neighbors are considerate party-line users. Remember these golden rules:

- Space your calls instead of making several without a break.
- Talk only as long as necessary on each call.
- When you finish talking replace the receiver properly.
- Make certain, if you are using a dial telephone, that the line is clear before you dial.
- Ask your youngsters to be considerate, too.
