

The Princess phone (shown above) is convenient for many locations in your home. The dial has a night light that is particularly reassuring in the bedroom. Wall and table phones can also be real step-savers. The Bell Chime (shown on the wall above) lets you adjust the telephone ring to a two-note chime, or the familiar bell—at normal or extra loud volume. Colors? Sure. Other questions? Just phone or visit our Business Office. Or, ask your telephone serviceman.
