* Local Call. 1 Message Unit for each call from Message Rate Telephones. No charge from Flat Rate Telephones. From coin telephones and non-coin semipublic telephones, the charge is 10 cents.
† Billed as Long Distance calls—not message units.

If an itemized bill is desired on any call made outside of your local calling area, but within the message unit calling area, such call should be placed by dialing "0" plus the telephone number and then asking the Operator for itemized billing. The charge for such a call will be at regular long distance rates, which are generally higher than message unit rates. Regular monthly itemization of all Message Unit calls, except local calls, may be obtained for a small additional charge. Call the Business Office for details.

AREA CODES FOR FASTER LONG DISTANCE DIALING

Even on calls you must place with the Long Distance Operator, the area code will help you get them through faster. Just give her the area code (if it is different from the one for the tele-

phone you are using) and the telephone number you want. For example, say "Area Code 311, 555-2368." If the Operator needs to know the place name, she will ask for it.

Area Codes for Some Cities
