

types of service

flat rate service

allows you to make an unlimited number of local calls with no extra charge.

measured service

allows you to make a limited number of local calls per month. Each local call (of any time length) uses one message unit. When the limit of calls has been exceeded, additional local calls are billed at 4.05¢ each.

message unit calls

Message units are used to determine the cost of "near distance" calls — that is, calls beyond your local dial area.

Calls to many San Francisco Bay Area exchanges outside your local area are charged at message unit rates. Refer to the message unit map page for your prefix.

These calls are billed at so many message units for the first 3 minutes, plus additional message units for additional minutes — depending on the distance called (Person, collect, credit card and third party calls are charged at long distance rates).

The charge for each message unit is 4.05¢ (except for calls from coin phones, hotel private branch exchanges and measured foreign exchange services, where the charge is 5¢).

To determine the approximate cost of a message unit call:

- Refer to the Message Unit Charges page for your prefix,
- Locate the place you are calling,
- Compute the number of units according to the length of the call,
- Multiply that number by the charge for one message unit.

Call your Telephone Company Business Office for further information.
